---

## SUMMARY

A skilled and innovative Backend and AI Developer with 1 years of experience in designing and implementing robust, scalable backend systems and AI-driven solutions. Proficient in developing RESTful APIs, managing databases, and deploying machine learning models in production environments. Adept at working with modern backend frameworks like Laravel, FastAPI, and Django, as well as AI frameworks such as TensorFlow, PyTorch, and Scikit-learn. Strong problem-solving skills, a solid understanding of cloud infrastructure (AWS) and a passion for continuous learning and application of AI technologies in real-world scenarios.

---

## WORK EXPERIENCE

### AI Developer, Redjinni Ind. Pvt. Ltd

AUG-2024 - Present

- Developed and deployed machine learning models for various applications, including natural language processing (NLP) and predictive analytics.
- Maintained up-to-date knowledge of industry trends and advancements in AI technologies to continuously enhance skills and apply innovative solutions.

### Laravel Backend Developer, Redjinni Ind. Pvt. Ltd

Mar 2021 - Dec 2022

- Implemented RESTful APIs for seamless integration with frontend applications and third-party services.
  - Collaborated with cross-functional teams to design and deploy new features, optimizing existing functionalities.
  - Managed database architecture and conducted regular code reviews to maintain best practices and coding standards.
- 

## EDUCATION

### Bachelor of computer application in artificial intelligence

AUG-2024 - expected-2026

Vivekananda Global University

- Coursework: Extensive study in Artificial Intelligence, Machine Learning, and Data Structures, with practical experience in implementing AI-driven solutions."

### Bachelor of advanced computer technology + Diploma in advanced computer technology

DEC 2020 - DEC 2023

Indian-Institute-Of-Computer-Learning

- Completed coursework on N++ and A++ modules
  - Gained expertise in AWS cloud solutions and infrastructure management
  - Acquired practical knowledge of AWS services and deployment strategies
- 

## ADDITIONAL INFORMATION

- **Technical Skills:** Laravel, Django, Fastapi, numpy, pandas
- **Languages:** English, Hindi, Gujarati
- **Certifications:** Data-science and AI (from A to Z udemy)
